## PLSQL Profiler Data

UTC Outcome
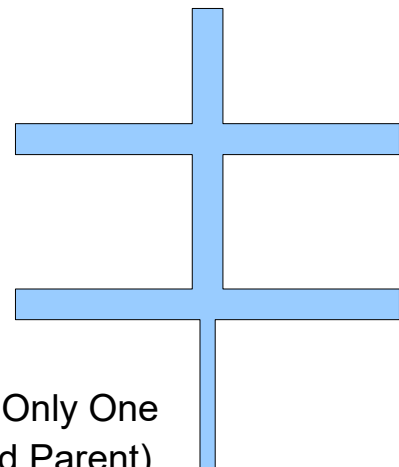

One or More
(Required Child)

Zero or More
(Optional Child)

These diagrams were drawn by Jay MacDonald (jay@thinktek.ca) and are released to the public domain.

Zero or One
(Optional Parent)

One and Only One
(Required Parent)

Relational Notation Cardinality Diagrams

Row 1:

Nothing	Child Records Must be checked In batch	Nothing	Child Record Must be checked In batch
Nullable FK to Other Table	Nullable FK to Other Table	Nullable Unique FK to Other Table	Nullable Unique FK to Other Table

Row 2:

Nothing	Child Records Must be checked In batch	Nothing	Child Record Must be checked In batch
FK to Other Table Is not null	FK to Other Table Is not null	Unique FK to Other Table Is not null	Unique FK to Other Table Is not null

Row 3:

Table with RCA → Rapidly Changing Attribute

Not Desirable ○──○ Not Desirable

More Desirable ─┤├ Associations (Assocs) Table ├┤─ More Desirable

Row 4:

Not Possible ─┤├──├┤─ Not Possible
